

Voluntary Metering Program

I agree to participate in the voluntary metering program for MRVA wells. I understand that to participate in this program a MDEQ approved flowmeter must be installed to manufacturer's specifications. The metering program also requires that a metered water use report be submitted to MDEQ after the end of the growing season with reporting starting in 2014.

Print Name of Participant	Date	Signature of Participant
Mailing Address		Phone Number
List permit number(s) for volunteered well(s) below. If you have already installed the flowmeter on any of the volunteered wells, <u>also</u> list the meter information for that well:		
Permit Number	Meter Manufacturer	Serial Number
MS-GW-
